Press Statement

Highway Improvement Works – A272 East Street, Billingshurst

J. Devine Civil Engineering, on behalf of the East Billingshurst Consortium will be carrying out highway improvement works on the A272 East Street, East of Billingshurst, as required by the planning consent relating to the East Billingshurst development.

Works will commence on Monday 28th January 2019 and, are anticipated to last approx. 26 weeks.

The carriageway improvement works include: installing a new roundabout on the A272, including the associated street lighting, to facilitate access into the new development south of the A272 and, the new spine road to the North. Drainage improvements to this section of the A272 and resurfacing of sections of the existing carriageway, both east and west bound.

For the duration of these works, traffic flow will be restricted, under temporary 2-way traffic lights, which will be manned between the hours of 06:30am to 18:30hrs and, on automatic mode outside of these hours.

Toward the end of the project, for a limited period, the road in this area will need to be closed to facilitate carriageway surfacing of the new roundabout and its approaches, further details and confirmed dates will be published nearer the time.

During the closure, diversion routes will be made available.
